

Imagine a magical portal where you can buy your favorite things without leaving your home? Well, if you, or your parents, have the habit of shopping online you understand where this magical portal is. Yes, it's in your computer! Today thanks to E-commerce you can buy anything you want online without going to the stores. So, instead of going to a store with shelves and cash registers, e-commerce lets you visit an online store with just a click! How often do your parents shop online? When your parents use e-commerce, they can choose things they want to buy from this online treasure chest. Then, with a little bit of magic (well, technology), these goodies are sent to your home.

My Favorite Mall

9 Lesson

Hi, I'm Kim. This is my favorite mall. I come here every week. Sometimes I come here with some friends or with my parents. I never come here alone. I usually buy my clothes and shoes here. This isn't an expensive mall. You can buy everything here. They have books, toys, clothes, shoes and a great food court for you to eat. I always eat pizza there. Oh, I also like to come here to watch movies. Today I'm here because I have to buy a present for my father. Saturday is his birthday. I don't have much money. I think a new cap is a great present. My dad loves caps.

1- Answer the questions according to the text.

1- Does Kim go to the mall alone sometimes?

2- What present does she want to buy?

3- Is the present for her brother?

4- What does Kim usually buy at the mall?

5- Are there only clothes and shoes to buy at the mall?

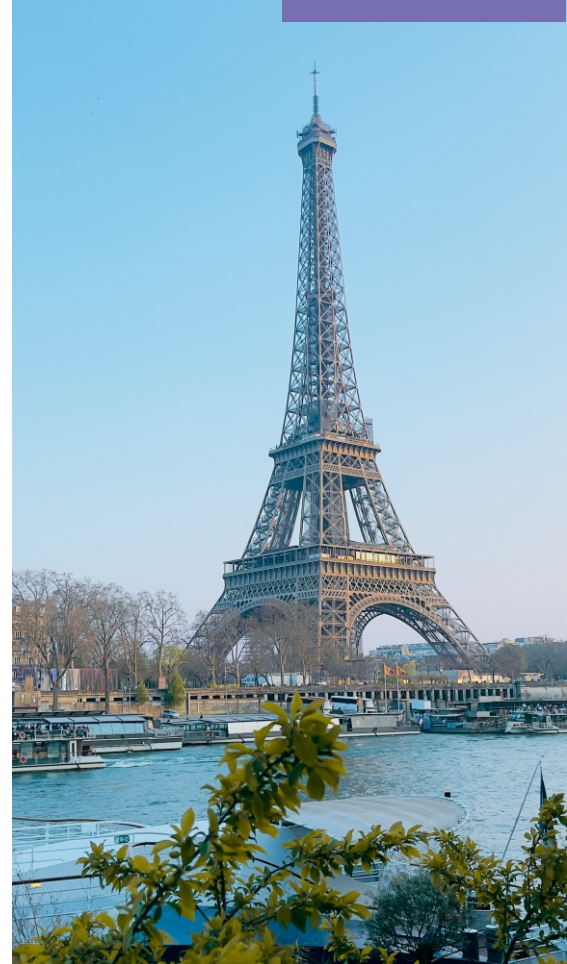

6- How often does Kim go to her favorite mall?

7- When does she always eat at the food court?

Reading Time

France has a population of over 67 million people and is famous for **its wine**, perfume and fashion. Around 80 millions people visit France every year. They come to go shopping, eat in restaurants and visit the famous **landmarks**. Do you like croissants? Well, they are not a French **invention**, they are actually Austrian. France **is known** for its attractions such as the Eiffel Tower, Arc de Triomphe **located** at Champs-Élysées, Notre-Dame cathedral and many other places. France is a country also known for some important inventions **including** the **stethoscope**, the pencil sharpener, **braille**, and the **hairdryer**. The calculator was invented in France by Blaise Pascal in 1642. Paris, the capital of France, is also home to other places like the Louvre Museum, where you can see the famous **painting** called the Mona Lisa. If you love **castles** and **fairy tales**, you **should visit** the Loire Valley. It's a region in France with beautiful castles. You can imagine yourself as a **prince** or **princess** exploring these buildings and their **lovely** gardens. But France has not just nice cities and castles, it also has incredible natural **landscapes**. The French Riviera is a sunny region along the Mediterranean Sea with beautiful beaches and clear blue water. One more **exciting** thing about France is the Tour de France. It's a famous bicycle race that happens every year. Cyclists from all around the world compete in this race. So, bon voyage and have a great time discovering the **wonders** of France!
